Professional Summary

Results-driven Full Stack Software Engineer with 3+ years of experience designing and developing scalable enterprise web applications using React.js, TypeScript, JavaScript, Node.js, and modern frontend architectures. Strong expertise in building responsive user interfaces, reusable component libraries, analytical dashboards, REST API integrations, and performance-optimized applications. Experienced in frontend optimization techniques including code splitting, lazy loading, custom hooks, state management, and rendering optimization. Proven ability to deliver high-quality software through automated testing, CI/CD pipelines, microservices architecture, and cross-functional collaboration in Agile environments.

Work Experience

Incedo Technologies Ltd., Hyderabad, India

Full Stack Web Developer (React, TypeScript, Node.js, MySQL) Oct 2025 – June 2026

- Refactored large monolithic React components into reusable custom hooks and modular TypeScript-driven architectures, improving maintainability and rendering performance.
- Developed interactive analytical dashboards using React, Material UI, ECharts, and AG Grid with dynamic visualizations and responsive user experiences.
- Optimized Live Network Maps rendering thousands of geolocation markers using Leaflet, debouncing techniques, and isolated state management strategies.
- Implemented frontend performance optimizations through component decomposition, memoization, and efficient state updates to reduce unnecessary re-renders.
- Built Human-in-the-Loop (HITL) RCA systems using VectorDB-based feedback pipelines to continuously improve AI recommendations.
- Designed and developed scalable Node.js and FastAPI microservices serving dashboard KPIs and AI-driven backend services.
- Optimized complex SQL workloads across millions of records, reducing dashboard latency and preventing query timeouts while implementing snapshot tables and aggregation pipelines.
- Achieved and maintained 100% unit test coverage across critical UI and AI modules using Vitest, TypeScript, and React Testing Library.

Wipro Technologies Ltd, Hyderabad, India

Front End Web Developer – React.js, JavaScript, Node.js Mar 2023 – July 2025

- Developed and maintained reusable React.js components for enterprise-scale applications using JavaScript and Redux Toolkit.
- Revamped critical UI modules including navigation systems, modals, forms, tabs, and data-driven workflows, improving usability and maintainability.
- Implemented lazy loading, React Suspense, code splitting, and dynamic imports, significantly improving application responsiveness and bundle performance.

- Integrated RESTful APIs and asynchronous workflows with comprehensive error handling, loading states, and fallback UI strategies.
- Collaborated closely with backend teams, participated in code reviews, Agile ceremonies, defect resolution, and production support while maintaining high engineering standards.

Projects

ShopKart — shop-kart.vercel.app

- Developed a responsive e-commerce application using React.js and Redux Toolkit.
- Implemented centralized state management for cart, product filtering, and checkout workflows.

Tech Stack: React.js, Redux Toolkit, JavaScript

Multiplayer Chess Game (WebSockets) - chess-multiplayer.vercel.app

- Built a real-time multiplayer chess platform using React.js, TypeScript, Node.js, and WebSockets supporting live game synchronization.
- Implemented custom React hooks, socket-based communication, and centralized game-state management for seamless multiplayer gameplay. **Tech Stack:** React.js, TypeScript, Node.js, Tailwind CSS, chess.js

Education

CMR Institute of Technology, Hyderabad

B.Tech

2018 – 2022

CGPA: 8.40

Skills

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, RTK Query, React Query, React Hooks, Context API, Material UI, Tailwind CSS, ECharts, AG Grid, Leaflet

Backend: Node.js, Express.js, FastAPI, REST APIs, Microservices Architecture

Testing: Vitest, Jest, React Testing Library, Mocha

Databases: MySQL, MongoDB, SingleStore, SQL Optimization

DevOps: Git, GitLab CI/CD, Docker, Kubernetes, ArgoCD

AI/GenAI: LLM Integrations, RAG Pipelines, Vector Databases, AI Chatbots, Prompt Engineering

Certifications

Wipro JavaScript L1

Wipro ReactJS L2

AWS Certified Cloud Practitioner
